

V řadě je vždy jeden obrázek jiný, dej ho do kroužku a řekni proč.

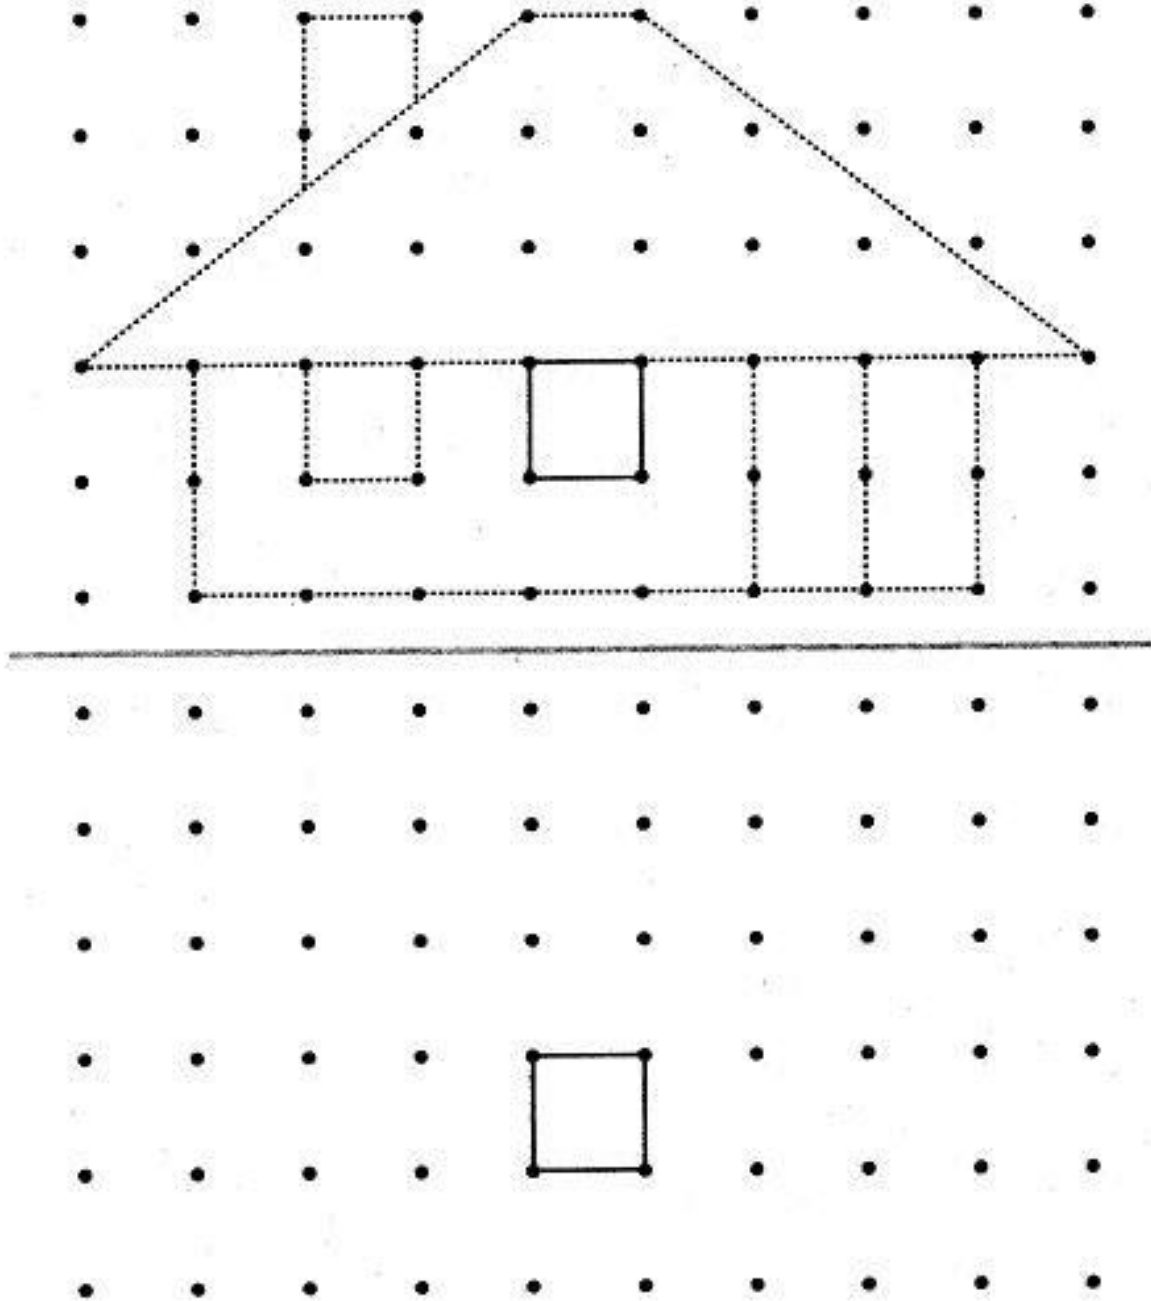

Vedle domečku nakresli tolik puntíků, kolik má domeček oken.

Urči, kde jich je nejmíň, kde nejvíc, kde stejně.

Zkus nakreslit stejný domeček spojením teček v dolní polovině obrázku.

Nakresli do domečku tolik oken, kolik je puntíků v kulatém okně.
